Art Unit: 3653

1. Applicant's election of Group I, claims 1-10, 13 and 14 in the reply filed on 22 January 2009 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

As applicant noted in the above mentioned election claims 13 and 14 were inadvertently omitted from the requirement for restriction. Claims 13 and 14 should have been included in Group I as applicant stated. Accordingly, claims 13 and 14 are being examined as part of the elected invention.

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. The term "poor-quality" in claim 1 is a relative term which renders the claim indefinite. The term "poor-quality" is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention. The term "poor-quality" is subjective, therefore; the scope of such term cannot be determined.

Claim 13 contradicts claim 4 in requiring the depressions be at least 2mm where claim 4 requires the depressions be at least 1mm.

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1 through 3 and 5 through 8 are rejected under 35 U.S.C. 102(b) as being anticipated by Hiraoka et al (cited by applicant).

See Figures 3 and 4.

6. Claims 1 through 3, 7 and 8 are rejected under 35 U.S.C. 102(b) as being anticipated by Landa et al.

See Figure 4.

7. Claims 4, 9, 10, 13 and 14 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

8. The abstract of the disclosure is objected to because the abstract contains the legal phraseology "means". Correction is required. See MPEP § 608.01(b).

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David H. Bollinger whose telephone number is 571-272-6935. The examiner can normally be reached on Monday through Friday from 9:00 am to 5:00 pm.
